

MEMOREX[®]

Auto-Load Cartridge

Memorex—the full-line supplier—manufactures and markets Easy Load II computer tape reel cartridges that simplify loading onto tape drives. And, with four special features, Easy Load II's add flexibility to your tape reel storage methods.

With the single hook feature, standard Easy Loads make it easy to hang reels in racks or other tape library storage devices. Keep stacks of reels secure with the addition of a stacking ring feature.

With Memorex's exclusive double hook feature, tape reels on the lower rows of your tape racks can be easily identified.

Color coding is the Easy Load II's fourth feature. Five colors—red, blue, green, yellow, and orange—make color coding and identification of tape reels easier with the Memorex Easy Load II.

Memorex Easy Load Features

- ☐ For automatic tape drive loading
- ☐ Single hook configuration for reel hanging
- ☐ Double hook configuration for lower rack rows
- ☐ Stacking ring feature available
- ☐ Five colors for color coding
