

OEM Disc Drive Division Sales Operations

Memorex Corporation is a large, diversified, vertically integrated, high technology, growth company serving customer needs for information storage and communication on a world-wide basis. Founded in 1961, Memorex is headquartered in Santa Clara, California, and has other plants in the United States, Mexico, and Europe. More than 100 offices serve customer needs around the world.

Since 1967 Memorex has provided quality products for the OEM marketplace. In fact, the first Memorex® equipment product was for an OEM customer. Memorex was the first manufacturer to enter the flexible disc OEM market and has produced more OEM Winchester-type drives than all its competitors combined. More important, however, Memorex® disc drives are recognized as the standard of excellence for the industry.

Memorex is a leader in service, too. Its OEM support system trains and assists customers in servicing and maintaining Memorex® equipment.

To find out more about Memorex® OEM products and services, please contact one of our OEM sales offices listed here.
