MEMOREX

Welcome to the Memorex 20th Anniversary Celebration

January 23, 1981

I would like to take this opportunity to welcome each and every one of you to this historic gathering of Memorex employees from around the world, as we look back on the first 20 years of Memorex Corporation, and, more importantly, dedicate our efforts to the next 20 years and beyond.

In your meetings this week, you have heard about the importance you, as an individual, play in Memorex's present and future. And, you have heard about the importance of working together as a team in order to achieve the goals we have set for 1981.

"Spirit of '81" is a slogan that has caught on throughout Memorex. But, it is much more than a slogan or a cost reduction program. It is a feeling, a "spirit" if you will, that 1981 is going to be the start of something big at Memorex.

I have seen that same "spirit" here, and I am confident that though you may leave your heart in San Francisco, you will carry the "Spirit of '81" with you wherever you go as representatives of Memorex.
