San Tomas Open House:

**May 22nd,
9 a.m. -- 4 p.m.**

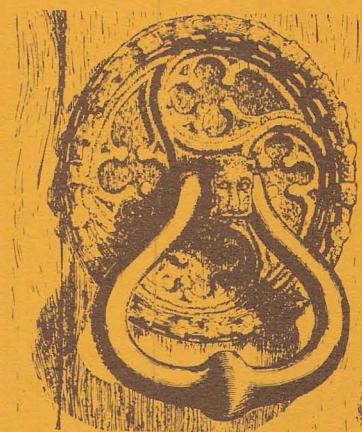

Arrangements for the Open House at the San Tomas site are nearly complete.

An extensive tour through the Building 10 manufacturing departments has been mapped out, and several displays are planned for areas adjacent to the tour route. The Employee Center and all four floors of the Administration Building will be open. Visitors cannot be allowed in Building 14 because of the highly proprietary work being done there.

We will print a map in Update 10 showing access roads to the site, parking areas, and tour starting points. A more detailed map will be available at the Open House.

We would like to emphasize that although San Tomas Buildings 10, 11, and 12 will be the only ones "open" at this time, all Memorex employees and their families in the

Santa Clara area are invited. This is a good opportunity to become more familiar with the activities that take place at this location, and we look forward to a large turnout.

Telephone Reminder

Wide Area Telephone Service (WATS) covering Southern California only has been installed at our Centrex switchboard. Any individual who places long distance calls to Southern California in area codes 213, 714, or 805 should now use our WATS lines rather than long distance.

You can access the WATS lines by dialing "0"; if a line is available the operator will give you the line and you may dial your call in the normal manner. (For example, you would dial 213-xxx-xxxx.)

If all lines are busy the operator will take your name and extension and call you back when a line becomes available.

The WATS service has been installed to reduce our telephone costs, but this will only be accomplished if the service is used properly. A few simple rules to follow when using WATS service are:

1. Only business calls are to be placed on the WATS.
2. Plan your call—eliminate unnecessary conversation.
3. Keep your calls short—6 to 10 minutes maximum.
4. If all lines are busy, be patient. You should never have to wait more than 10 or 15 minutes.

WATS is not a free service—only place calls necessary to the business of Memorex. With a little effort, we can eliminate all long distance charges to Southern California.

The switchboard is open from 7:30 a.m. to 6:00 p.m. Monday through Friday to handle your WATS calls.

Family Day at Roaring Camp

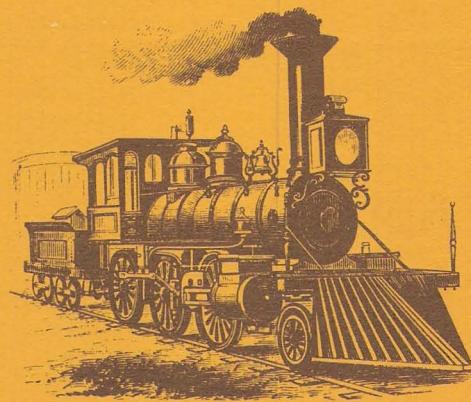

MAG has also obtained special tickets for the steam train ride through the redwoods at Roaring Camp in Felton (Santa Cruz mountains). The tickets are good from 10 a.m. to 6 p.m. on Sunday, May 23rd.

The price of the special tickets is \$2.00 per person (normally \$3.00), only \$1.00 for children 5 to 15 (normally \$1.75), and free for children under 5.

Steam trains will depart Roaring Camp depot every hour, 10 a.m. to 5 p.m. Since the 12 noon to 3 p.m. trains usually sell out well before departure time, you can enjoy a more relaxing day by taking the 10 or 11 a.m. or 4 to 5 p.m. trains.

An outdoor chuckwagon barbecue is available at the site (although it is not included in the train ticket price), and there are plenty of picnic spots, and miles of hiking trails.

Bill Fullendorf, x7-2992, has tickets, or contact Hal Neuenswander in Building 7.

Visit the 747

You may visit a 747 jet for free on May 21 from 7:30 p.m. to 9:00 p.m. at San Francisco International Airport.

MAG has arranged with TWA to make a Boeing 747 available for boarding so that you and your family may have the opportunity to look around. An experienced 747 captain will be there to explain some of the special features of the plane and to answer your questions.

TWA has also prepared a special movie on the 747 which will be shown on board. Coke and coffee will be served.

Bill Fullendorf and Hal Neuenswander (Building 7) have boarding passes. Since their supply is limited, reservations should be made early.

Pictured here are the mini-MAG bowlers. Top photo: Members of the intermediate group (ages 9-13). This group was divided into eight teams of four players each. The teams compete against each other in two 12-week sessions for a season championship. This year, the winners of the first half—the "Moonshiners"—came to watch as the "Rolling Stones" and the "All Stars" rolled to decide the winner of the second half. The Rolling Stones won the playoff by a grand total of 32 pins and then went on to meet the Moonshiners for the league championship. The Moonshiners turned out to be a tougher team, however, and they beat the Rolling Stones by a high margin in just two games.

Pictured below are the Pee-Wee bowlers (ages 6-8). Many of these youngsters will move up to the intermediate group next' season. A pizza banquet, marking the end of the season, is planned for later this month.
